- General laboratory organization

Your qualifications:

- A Bachelor's degree in Biotechnology, Biology or equivalent or successfully completed training as BTA/CTA or equivalent
- **Good knowledge of English (spoken and written) and/or a knowledge of German (at least B1) desirable**
- Confident handling of MS-Office
- The ability to work with and as a part of a team
- Precise, structured way of working

What we offer:

- ✓ Flexible working hours
- ✓ Family atmosphere and team-oriented colleagues
- ✓ Modern equipment and a wide range of technology
- ✓ A secure job in a constantly growing company
- ✓ Barrier-free and ergonomic workplaces
- ✓ Good accessibility by public transport
- ✓ Trainings
- ✓ Contribution to company pension scheme
- ✓ Individual laboratory glasses (with prescription if required)
- ✓ Subsidy for office workstation glasses
- ✓ **Support for international specialists (e.g. language courses)**
- ✓ Free coffee, water and tea
- ✓ Once per week fruit for all employees
- ✓ Subsidized lunch

German is not your mother tongue? That doesn't matter: Microcoat supports you with a German language course once you've started.

Please apply exclusively via our applicant portal at <https://www.microcoat.de/career/>.

Please upload your complete application documents to our portal via the link above and let us know your earliest possible starting date and your salary expectations.

If you are interested in a part-time position, please let us know how many hours per week you would like to work and at what times you are available.

We look forward to receive your application!
